CREATING VALUE FOR PROPERTY & ENVIRONMENT

Introduction

Assuring
Fresh & Healthy
Atmosphere

It started with efforts & dedication of Late Mr. GANGADHAR BALWANT RAO, Passed out from J & J (TATA) school of Arts -Mumbai in Year 1901 & Engineering (Mechanical .Irrigation system) from Poona University 1895. He had given services to Kolhapur State, Mumbai Railway Depot., Dewas State's Deewan Year 1902-1910 (Irrigation & Land marking, Recourses support), Then moved to Gwalior State, Till the Year 1942, His Highness Madhav Rao Scindia was the chairperson, in Year 1913 Mr.Gangadhar Rao Jagtap was first Chairman of municipal corporation, Gwalior. During that time he had improved power house at Moti Jheel & Tigra Dam (water management). He started the concept of Sulabh Shochalay Suvidha, by his vision in municipal corporation of Gwalior.

After that thought were organized in Indian market for more than 10 decade, that's why I've given services to reputed good business groups as well as government sector's in South Asia, Bangalore, Maharashtra, Karnataka, Tamilnadu.

The moment of pride came in when the **Mr. Praveen P J** was appointed as an Environment care handler in AMF -Germany (GmbH), TVS, SUZUKI, MICO, BREAKS INDIA, TATA Environmental Institute on behalf of Concept-B'lore & VPC -Holland (European Group) he is appointed as solo Environment care handler in India, as well as Century Ply boards (I) Ltd.-Kolk. (W.B) certified handler for Tree & wood related items.

Greenery Vastu Tips -

Greenery is an essential part of any landscape design. It not only adds beauty and color to the outdoor space but also provides numerous benefits for the environment and the people who live and work in the space. Here are some tips for incorporating greenery into your landscape design:

- Choose the right plants:** Select plants that are native to your region and are well-suited to the climate and soil conditions. Native plants are more likely to thrive and require less maintenance.
- Use a variety of plants:** Incorporate a mix of different plant species, including trees, shrubs, and ground cover, to create a diverse and healthy ecosystem.
- Consider the placement:** Place plants in strategic locations to provide shade, privacy, and windbreaks. For example, planting trees and shrubs near the house can help reduce energy costs by providing shade in the summer and windbreak in the winter.
- Use mulch:** Mulch helps retain moisture in the soil, suppresses weeds, and improves the overall health of the plants.
- Water properly:** Water plants regularly, but avoid overwatering. Deep watering encourages roots to grow deeper into the soil, making plants more drought-tolerant.
- Prune regularly:** Pruning helps maintain the shape and health of plants, and encourages new growth.

By following these tips, you can create a beautiful and sustainable landscape that enhances the quality of your outdoor space.

A woodland garden

A woodland garden is a beautiful and serene outdoor space that mimics the natural beauty of a forest. It is a great way to create a peaceful and relaxing environment in your backyard. Here are some tips for creating a woodland garden:

- Choose the right plants:** Select plants that are native to your region and are well-suited to the shade and moisture conditions of a woodland garden. Native plants are more likely to thrive and require less maintenance.
- Use a variety of plants:** Incorporate a mix of different plant species, including trees, shrubs, and ground cover, to create a diverse and healthy ecosystem.
- Consider the placement:** Place plants in strategic locations to provide shade, privacy, and windbreaks. For example, planting trees and shrubs near the house can help reduce energy costs by providing shade in the summer and windbreak in the winter.
- Use mulch:** Mulch helps retain moisture in the soil, suppresses weeds, and improves the overall health of the plants.
- Water properly:** Water plants regularly, but avoid overwatering. Deep watering encourages roots to grow deeper into the soil, making plants more drought-tolerant.
- Prune regularly:** Pruning helps maintain the shape and health of plants, and encourages new growth.

By following these tips, you can create a beautiful and sustainable woodland garden that enhances the quality of your outdoor space.
